7.0

\$(DELPHI)\Projects\bpl

- ☐ Start Delphi when this application closes.
- ☒ SilentMode
- ☒ Stop on failure

No.	Project/Package	State	Last Compile Date	IDE Install	File Version	File
1	designtimepackage.dpk					
2	NormalPackage.dpk					
3	PackageWithSuffix.dpk					
4	runtimepackage.dpk					
5	Project1.dpr					

Here are some very usefull functions.

- Open Project in IDE
- Show File Umsch+Einf
- Show cfg-file
- Compile Selected Projects Umsch+F9
- Install Package
- Uninstall Package
- Execute Application Einf
- Edit Project Group
- File Explorer
- Remove Project/Package Entf
- Find Files *.dcp and *.bpl
